

Como ya tengo cuenta en github en el apartado uno solo voy a crear el repositorio de la tarea, para ello voy a la pestaña de repositorios y pincho en new.

Aquí le doy nombre al repositorio con una breve descripción, dejando la visibilidad pública.

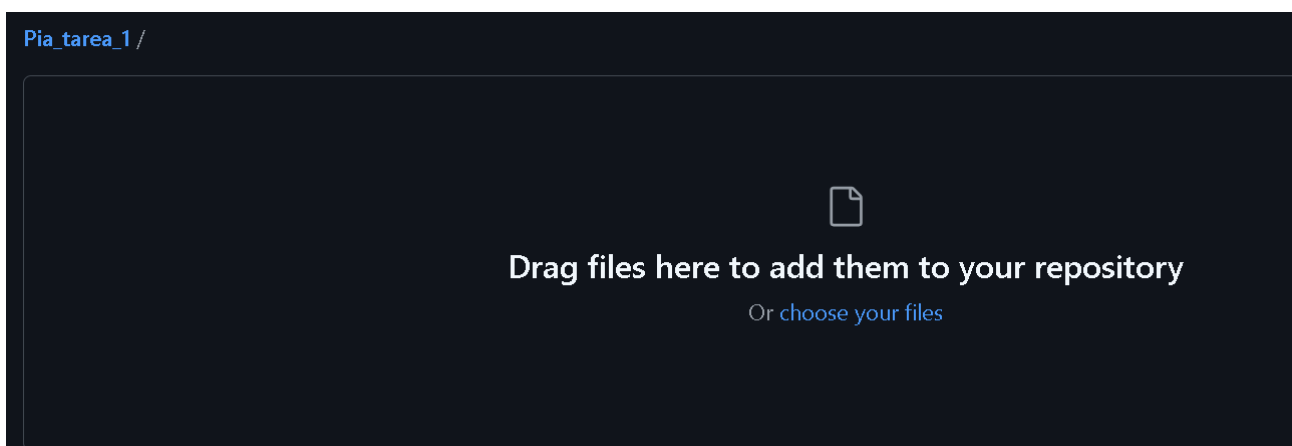

Dentro del repositorio creado añado mi archivo del apartado 1 pinchando en uploading an existing file

The screenshot shows the GitHub repository page for 'Pia_tarea_1', which is marked as 'Public'. The repository name is displayed with a green octocat icon. Below the name, there are two main sections. The first section, titled 'Start coding with Codespaces', features a laptop icon, a description about adding a README file and starting coding in a secure environment, and a 'Create a codespace' button. The second section, titled 'Quick setup — if you've done this kind of thing before', includes buttons for 'HTTPS' and 'SSH', a text box containing the repository URL 'https://github.com/neoaugust/Pia_tarea_1.git', and a prompt to 'Get started by [creating a new file](#) or [uploading an existing file](#). We recommend ev

Y en la siguiente pagina añado mi archivo.

The screenshot shows the file upload interface within the 'Pia_tarea_1' repository. At the top left, the path 'Pia_tarea_1 /' is visible. The main area is a large dark rectangle with a file icon in the center. Below the icon, the text 'Drag files here to add them to your repository' is displayed, followed by the link 'Or [choose your files](#)'.
